

Fellowship in Musculoskeletal Imaging

1. Information Related to Course Content:

The emphasis of the fellowship is on achieving well-balanced, comprehensive subspecialty training in all areas of MSK Imaging. It is intended that the intensive MSK Imaging experience at the Dr. D.Y. Patil Medical College, Hospital and Research Centre, Pimpri, Pune, prepare the fellow for a career in subspecialty MSK Radiology, either private practice or academic.

Fellows will acquire considerable experience with a wide variety of plain radiographic diagnostic work, ultrasound, cross-sectional CT and MRI; fellows will write at least two papers for publication and prepare at least one poster. The program also includes spine, pediatric musculoskeletal imaging, rheumatology, and bone tumor evaluation. Responsibilities include supervised (and occasionally unsupervised) clinical work, resident teaching, and research.

2. Duration:

One Year

3. Training Facilities:

- Radiography
- Musculoskeletal Ultrasound and Doppler
- Computed Tomography (CT)
- Magnetic Resonance Imaging (MRI)
- Arthrography
- Imaging-Guided Biopsy

4. Teaching Faculty Details (Along with active registration No.)

Dr. Purnachandra K. Lamghare (MMC Reg. No. 49058)

5. Infrastructure Facilities:

MRI (1.5T & 3T), CT Scan (16 Slice & 128 Slice), X-ray and Ultrasonography

6. Fees: Rs. 1,00,000/- (Rupees One Lakh Only)
